Proposition 84, Implementation Grant Round 4

Project 11: San Diego River Healthy Headwaters Restoration Local Project Sponsor: Resource Conservation District of Greater San Diego

SAVE THE SOURCE

To create a better future for our San Diego River, we must start at its source.

HEADWATERS PROGRAMS:

Land Conservation: We have saved 2,400+ acres of critically important land to protect special habitat, wildlife corridors, and recreation resources.

Habitat Restoration: We restore habitat by removing harmful invasive plants and planting new native trees.

Nature Connection: We connect people to nature by offering free guided hikes at our preserves.

Trail Maintenance: We create recreation opportunities for the public to explore the headwaters.

WHAT WE DO

The San Diego River Park Foundation is dedicated to fostering stewardship and appreciation of the San Diego River.

GET INVOLVED TODAY

VOLUNTEER
Help care for these lands as a volunteer!

EXPLORE

Proposition 1, Disadvantaged Community Involvement

Project 8: Storm Water Quality for Grape Day Park DACs Local Project Sponsor: The Escondido Creek Conservancy

"You can't go back and change the beginning, but you can start where you are and change the ending."

Re-imagining Grape Day Park and the Escondido Creek Flood Control Channel

The Conservancy has a big vision: to help make the City of Escondido and in particular the Escondido Creek concrete flood control channel a community where people can live in a healthy and safe environment and enjoy recreation and trees and green that parks with their families and friends.

In the 1950s and 1960s, putting creeks in concrete flood control channels helped create opportunities for cities to develop an organized and easily managed infrastructure through their centralized flooding, storm water control, and drainage the treatment of sewage, storm water, and debris at the same time. But over time, the Escondido Creek flood control channel has become the highest crime rates in the city.

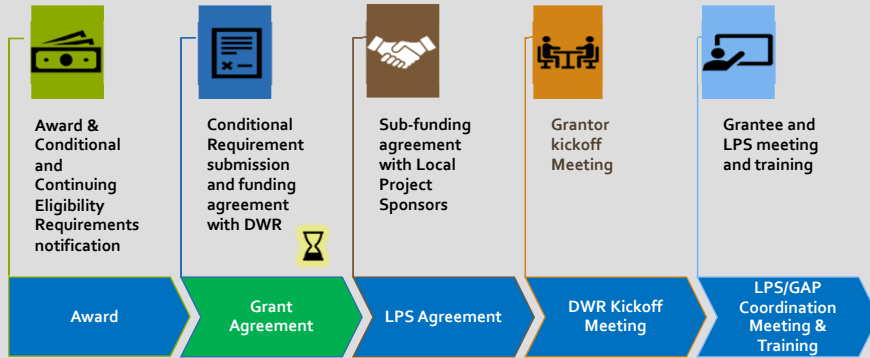

The Conservancy is working with the City of Escondido, the Escondido Chamber of Commerce, and other partners to re-imagined Escondido Creek as a vibrant and green park. To help create an improved 2017 the City of Escondido approved a \$100,000 grant to fund the Escondido Creek Flood Control Channel and the Escondido Creek Flood Control Channel. With these funds, the Conservancy has been working to improve and restore the creek and its surrounding area. We will help us incorporate the city's best interests and help us create a healthy and safe environment and enjoy recreation and trees and green that parks with their families and friends.
