Regional Water Summit

**LOCALIZING  
CALIFORNIA  
WATERS**

**April 29-30, 2019**

Ojai Valley Inn, Ojai, CA

Building Community Resiliency  
through Collaboration

# THE TIME IS NOW

- Upcoming State requirements
  - Climate change
  - Community resilience
- Long-term vision for enhanced regional collaboration

# BUILDING INTEREST

- Support vision and projects with less reliance on state funding
- Better support EJ communities by including a broader range of voices in water management and localizing resources
- Support local resilience

# AUDIENCE

State (DWR), Regional (SDRWQCB),  
Jurisdictional levels

IRWM RAC members

Regulators, policy makers & elected officials

Universities

Trade business associations

Community & EJ organizations

Climate change NGOs, local food  
movement, ecosystem protection  
organizations, etc.

# DESIRED OUTCOMES

Create a vision for localizing our water in San Diego

Develop a strategic plan for the region to include decentralized non-potable water

Develop creative ideas for collaborative & local funding streams

Collaborate with local stakeholders and engage with the broader state and national effort

# LOGISTICS

Spring 2021

Funding

Location

# Q&A

- Other desired outcomes
- Additional stakeholders
- Funding ideas
- Value to RAC
- Length & size of the event
