**SUBJECT: Proposition 1 (Prop 1) Storm Water Grant Funding Award – Storm Water Resource Plan (SWRP) Concurrence Letter**

Dear Ms. Rosa:

Thank you for submitting the County of San Diego’s (County) functionally equivalent SWRP and the completed Self-Certification Checklist (Checklist) to the State Water Resources Control Board (State Water Board), Division of Financial Assistance (DFA) on March 1, 2017 per the Proposition 1 Storm Water Grant Agreement Number D1612628.

State Water Board staff completed a review of the Checklist and referenced pages provided with the SWRP. State Water Board staff concur that the SWRP and Checklist demonstrate that the County’s functionally equivalent SWRP is consistent with the California Water Code (Water Code) sections 10561-10573 and the State Water Board’s SWRP Guidelines. By this concurrence, the County and other eligible entities with projects in the SWRP are eligible to receive funding from a bond act approved by voters after January 1, 2014 for storm water and dry weather runoff capture projects included in the County’s SWRP planning area.

State Water Board staff’s review was for funding eligibility related to a bond act only. The review of the submitted SWRP and Checklist does not include a technical evaluation or analysis of the SWRP or any supporting documents, and this letter provides no approval of these documents.

Please do not hesitate to contact Harish Bagha at (916) 341–5716 should you have any additional questions.

Sincerely,

Leslie S. Laudon, Deputy Director  
Division of Financial Assistance
