

Draft 2013 IRWM Plan Vision, Mission, Goals, and Objectives

Vision:

An integrated, balanced, and consensus-based approach to ensuring the long-term sustainability of the Region's water supply, water quality, and natural resources.

Mission:

To develop and implement an integrated strategy to guide the Region toward protecting, managing, and developing reliable and sustainable water resources. Through a stakeholder-driven and adaptive process, the Region can develop solutions to water-related issues and conflicts that are economically and environmentally preferable, and that provide equitable resource protection for the entire Region.

Goals:

- 1. Improve the reliability and sustainability of regional water supplies.
- 2. Protect and enhance water quality.
- 3. Protect and enhance our watersheds and natural resources.
- 4. Promote and support sustainable integrated water resource management.

Objectives:

To be included in the San Diego IRWM Plan, all implementation projects must contribute to the attainment of Objective A, Objective B, and at least one other objective.

- **Objective A**: Encourage the development of integrated solutions to address water management issues and conflicts.
- **Objective B**: Maximize stakeholder/community involvement and stewardship of water resources, emphasizing education and outreach.
- **Objective C**: Effectively obtain, manage, and assess water resource data and information.
- **Objective D**: Further scientific and technical foundation of water management.
- **Objective E**: Develop and maintain a diverse mix of water resources, encouraging their efficient use and development of local water supplies.
- **Objective F**: Construct, operate, and maintain a reliable infrastructure system.
- **Objective G**: Enhance natural hydrologic processes to reduce the effects of hydromodification and encourage integrated flood management.
- **Objective H**: Effectively reduce sources of pollutants and environmental stressors to protect and enhance human health, safety, and the environment.
- **Objective I**: Protect, restore, and maintain habitat and open space.
- **Objective J**: Optimize water-based recreational opportunities.
- **Objective K**: Effectively address climate change through adaptation or mitigation in water resource management.
